How are the levels played?

In order to play the levels, you have to bring the bellows to the right position at the right time so that the colored balls enter the tunnels of their own color.

To pass the level, at least 70% of the balls given to you must have entered the correct tunnel.

How to play Freestyle?

Playing freestyle is quite enjoyable. You must use the bellows to deliver the colored balls to the tunnels of your own color. Your first mistake will be game over and you will see your new score
